Istanbul, Turkey | Europe/Istanbul

Professional Summary

Senior backend engineer and .NET specialist with 12+ years of experience in financial services, banking systems, and legacy modernization. Leads architecture, code reviews, and mentoring across banking engagements, from COBOL/mainframe transformation to .NET backend design. Combines hands-on C# development, database integration, and asynchronous programming with international remote team experience and practical AI-assisted engineering.

Technical Skills

Backend Engineering: C#, .NET, .NET Core, ASP.NET MVC, REST APIs, EF Core, Asynchronous programming, WCF

Architecture and Design: Clean Architecture, Legacy modernization, Service-oriented architecture, Repository, Unit of Work, Facade, Strategy

Databases: SQL Server (MSSQL), Oracle, PL/SQL

Languages and Frameworks: Java, Spring, TypeScript, JavaScript, WPF, WinForms, Knockout.js

DevOps: Azure DevOps, GitHub Actions, CI/CD

AI-Assisted Development: GitHub Copilot Enterprise, Prompt engineering, Spec-Driven Development (SDD)

Quality and Leadership: Unit testing, Playwright E2E testing, Code reviews, Mentoring, Architecture guidance, Coding standards

Training: Microservices, Distributed systems, .NET with AWS, Containerization, React

Professional Experience

Senior Software Engineer (Backend, .NET) | Innovance

May 2024 - Present | Istanbul, Turkey (Remote)

- Akbank: Led COBOL/mainframe modernization into C# and Java backend services for banking systems.
- Guided architecture, coding standards, and mentoring using Clean Architecture and Repository, Unit of Work, Facade, and Strategy patterns.
- Applied specification-driven workflows and AI-assisted development to align implementation with requirements.
- Türkiye Finans: Developed internet and mobile banking backends using ASP.NET MVC, WCF, and SQL Server, with unit tests.

Technologies: C#, .NET, Java, ASP.NET MVC, WCF, SQL Server, GitHub Copilot Enterprise, Azure DevOps, GitHub Actions

Senior Software Engineer (Backend, .NET) | insightsoftware

September 2022 - April 2024 | North Carolina, USA (Remote)

- Contributed to backend architecture, design, and implementation of C# and .NET Core features in an international remote team.

Technologies: C#, .NET Core, Backend architecture

Senior Software Engineer (Backend, .NET) | OBSS

September 2017 - September 2022 | Istanbul, Turkey

- Halkbank: Led mobile banking backend migration from .NET Framework to .NET Core and Clean Architecture, applying asynchronous programming and thread optimization.
- Built REST APIs with EF Core and SQL Server, using Repository and Unit of Work patterns and Azure DevOps CI/CD pipelines.
- Türkiye Finans: Owned code reviews, mentored developers, and established coding standards; developed corporate customer applications with WinForms and WCF.
- Akbank: Led full-stack development for a payment system campaign using TypeScript, Knockout.js, C#, Java/Spring, and Oracle 12c.

Technologies: .NET Core, REST APIs, EF Core, SQL Server, Azure DevOps, TypeScript, Knockout.js, Java, Spring, Oracle 12c, WinForms, WCF

Java Developer | TÜBİTAK

January 2017 - September 2017 | Kocaeli, Turkey

- Developed Java software using APDU commands to write EAC/SAC security data to passport smartcard chips for government identification systems.

Technologies: Java, APDU, Smartcards, EAC/SAC

.NET Developer | VakıfBank

August 2013 - January 2017 | Istanbul, Turkey

- Modernized CRM and collections applications toward service-oriented architecture using WPF/MVVM, WCF, Oracle 11g, and PL/SQL.

Technologies: .NET, WPF, MVVM, WCF, Oracle 11g, PL/SQL

Part-Time .NET Developer | VeriPark

December 2012 - June 2013 | Izmir, Turkey

- Built ASP.NET widgets for Turkcell's SharePoint environment while completing the Computer Engineering degree.

Technologies: ASP.NET, SharePoint

Education

BSc in Computer Engineering

Ege University, Izmir, Turkey | September 2008 - June 2013

Certifications and Training

Microsoft Certified: Azure AI Engineer Associate | Microsoft | Certification | March 6, 2026 | Expires March 6, 2027 | [Certification overview \(AI-102\)](#)

[Introduction to GitHub Copilot](#) | Microsoft Learn | Training | 2024 | [Course overview](#)

Build Microservices with .NET and Amazon Web Services | Udemy | Training | February 2024

IELTS - Band 7 | British Council | Language test | 2023

React Nanodegree Program | Udacity | Training | February 2020

Languages

Turkish: Native; English: Professional proficiency; IELTS Band 7 (2023)

Interests

Chess; LLM and RAG applications; AI-powered customer service; Travel and cultural exchange
